Horsham District Joint Action Group Email dated 23 rd May 2018, from Greg Charman, HDC Please see the following message re the new arrangements for the District's Joint Action Group meeting, please see the message below from Inspector Sarah Leadbeatter. Although membership of the JAG is limited and by invitation, any	For information

professional can raise an issue for the group to consider and a link to the online form is also provided. Val is a member of JAG's, attends the meetings and will provide an update.

'Following a review of the Horsham Joint Action Group, it became apparent that the current meetings weren't achieving the group's original aims and objectives of identifying problems within the communities of Horsham district and working collectively as a group to take action and tackle those problems to a suitable conclusion.'

Therefore a new process has been designed whereby you will be able to send issues via an electronic form ([link below](#)) which will then be discussed by a core group of JAG members. To ensure that the right people are around the table to tackle issues raised, members of the newly reduced JAG will be:

Sussex Police
West Sussex Fire & Rescue Service
Horsham District Council
West Sussex County Council
Neighbourhood Watch

The concept moving forward is that you will only be asked/expected to attend, if you can bring something to the group which will aid the group in solving that problem. With the new system of submitting problems electronically before the meeting, we as a group will be better placed to identify in advance what we know about the current problem, what action we have taken already, if any, and how we can assist moving forward. The new JAG will be very much action driven with clear ownership being placed on the most appropriate agency to lead and manage that problem profile.'
