

West Sussex recycles

Household Waste Recycling Sites - update

The range of items accepted at Household Waste Recycling Sites (HWRSs) across West Sussex has been extended to include all waste streams, with minor exceptions, as laid out below:

- Soil and hardcore will be accepted at all sites with the exception of Bognor, Midhurst and Westhampnett.
- Plasterboard can be deposited at Billingshurst, Burgess Hill, Crawley, Horsham, Littlehampton, Shoreham and Worthing.
- Asbestos can be taken to Burgess Hill, Crawley and Worthing

Trailers will be permitted at Crawley, Billingshurst and Worthing, but only on weekday afternoons from 1pm – 6pm, due to the operational changes being made to sites in order for them to access safely. However, trailers will not be accepted at the other sites for the time being, nor can they enter these three sites at weekends or on weekday mornings.

Residents who wish to take a van, pickup truck or trailer must also display the appropriate free permit, further details of which can be [found online](#).

You can find more information and the full statement on [our website](#).

Don't forget your ID...

Residents are required to show one of the forms of ID detailed below at the entrance, in order to use the site. Access to the sites will be denied if proof of residency is not shown, or you live outside of West Sussex, with turning areas provided for those who are not able to use the site.

- Current driving licence (a photo card or paper licence will be accepted) - **preferred option**
- Council Tax bill - from the current Council Tax financial year
- Utility bill (gas, electric or water) - less than a year old
- TV licence less than a year old
- Letter from HMRC or the Home Office - less than a year old

Only original and printed paper copies are acceptable. Allowing the use of digital copies of documents was considered but it was felt that the potential issues, such as lack of internet connection, could result in traffic congestion.

Household Collections

At the present time, household recycling and waste collections continue as normal across West Sussex, and we will be supporting our colleagues at the district and borough councils to enable these to continue, but would ask residents to be sensible about their waste production.

You can also find information about recycling and waste reduction on our website; www.wastepreventionwestsussex.co.uk

Where possible we would ask residents to use their kerbside collection for recycling, rather than making a journey to the HWRS for items that can be disposed of at home.

What can I put in my recycling bin?

Items should be
Clean, Dry and Loose
**Not tied up in
plastic bags!**

WEST SUSSEX
WASTE PARTNERSHIP

West Sussex Wastebusters incoming!

A new [West Sussex Wastebuster home learning website](#) has been launched this week and will be available for the rest of the summer term and throughout the summer holidays.

The website offers an exciting opportunity to engage pupils and their families in a positive and enriching home learning package designed to support waste prevention and recycling in the home. This includes a "Recycle It Right" Pledge Challenge competition and an exciting variety of child-led, creative activities that will be fun for all the family.

For further updates on their work, be sure to follow West Sussex Wastebuster on [Twitter](#), [Instagram](#) and [Facebook](#)

Covid-19 Updates

The Government has issued advice about disposing of rubbish should you have a confirmed or suspected case of Covid-19 in your household. Used tissues and disposable cleaning cloths should be put into a rubbish bag. The bag should then be put into a second bag and tied securely. You should then wait 72 hours before putting it in your outside bin. You are able to dispose of other household waste as normal.

Please also remember that items such as disposable gloves and masks cannot be recycled, and should be placed into the general household waste for collection at the kerbside.

Please continue to check www.westsussex.gov.uk/coronavirus for details of any impact to County Council services. We would also advise you to check any information or updates given by your local district and borough council, as they operate your waste and recycling collections and will be able to advise of any disruption or changes.

Sign up for our monthly newsletter

Finally, we know that if you receive this email you are passionate about waste prevention and recycling.

If you find these emails helpful, why not share it with a friend and get them to [subscribe](#) to the West Sussex Recycles newsletter as well.

Help us spread the message and get more people on board to make West Sussex a [strong, safe and sustainable place](#) to live.

You can also like our [Facebook](#) page and follow us on [Twitter](#) to keep up to date with the latest news and tips on waste reduction and recycling.
