

**Do you want to see a new town of 3,500 dwellings built between the Buck Barn traffic lights and the Orchard café on the A272?**

**Masses of development, happening over 15 years. The results could affect everyone. Hugely increased local traffic including on our local lanes, parking issues, air pollution and pressure on all our local services from the NHS and ambulances, to schools, to the police, fire service etc?**

**If all this worries you, please write NOW to local District councillors at:**
