

## **School Safety Zone in Nuthurst**

**The Parish Council has just applied to WSCC Highways for a School Safety Zone outside St Andrews School which will include a 20mph advisory speed limit. This was in collaboration with the school and supported by St. Andrews Parochial Church Council, the District Councillor, the owner of Architectural Plants and eighty Nuthurst residents.**

**This application was made after an investigation by a WSCC Highways officer into the hazards outside the school and following his recommendations.**

**The School Safety Zone, if successful, will hopefully improve safety for all those who live in Nuthurst or visit it.**

**The result of the application will be known sometime in the Autumn and posted here for your information.**
